Sir:

REQUEST FOR CORRECTION OF FILING RECEIPT

Applicants are returning herewith for correction the filing receipt in the above-identified patent application. The filing receipt incorrectly implies that one of the two priority applications claims benefit of the other:

This application claims benefit of 60/199,607, filed April 25, 2000
which claims benefit of 60/233,509, filed September 19, 2000

In fact, neither priority application claims benefit of the other; instead, the present application claims independent benefit of both priority applications. Thus, the brief description of domestic priority data on the filing receipt should read as follows:

This application claims benefit of 60/199,607, filed April 25, 2000
and claims benefit of 60/233,509, filed September 19, 2000

Specifically, "which" should be replaced with "and" in the second line of priority data.

In support of this request, applicants herewith submit a copy of the first page of the present patent application, as filed April 25, 2001, identifying both priority

applications and the correct relationship between them.

In summary, applicants respectfully request that the filing receipt be corrected to show the priority data information as listed above. Please mail a corrected filing receipt to applicants' undersigned attorney.

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, Washington, D.C. 20231 on January 21, 2002.

Cross Reference to Related Applications

This application is based upon and claims priority under 35 U.S.C. § 119(e) to the following U.S. provisional patent applications, each of which is incorporated herein in its entirety for all purposes: Serial No. 60/199,607, entitled "Information Transfer System," filed April 25, 2000; and Serial No. 60/233,509, entitled "Information Transfer System," filed September 19, 2000.

Field of the Invention

The invention relates to a computer-based educational system and method for presenting information.

Background of the Invention

Technology Center 2100

Information may be defined as a collection of facts or data, which typically relate to some object or event. Information may be derived in various ways, including study, experience, and/or instruction. For example, information may be derived from a presentation in which a speaker shows and comments upon slides, overhead transparencies, and/or other visual aids.

Presentations are perhaps the most common mode of organized instruction and form the foundation of our educational system. Yet, standard presentations suffer from a number of shortcomings. For example, the form and pacing of presentations are dictated largely by the presenter. Thus, viewers have little or no opportunity to start and stop the presentation (except through disruptive question asking) for reflection, note taking, or

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
